

# LINGER Mfg. Co.

▶ Automatic Filling/Seaming Machine For Large Cans

▶ Rotary Piston Filler / Automatic Seamer

**KHORASAN**

**FS 18/6**

# KHORASAN FS 18/6

This series of machines consist of two compact interdependent technological units:

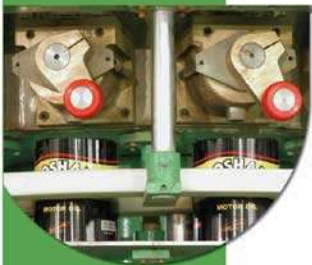

## ROTARY PISTON FILLER AUTOMATIC SEAMER

### Main Features:

- Precision fill accuracy regardless of the temperature and viscosity of the product.
- Tangential discharge from the filler to the seamer, minimizing product spillage.
- Extra heavy duty central shaft bearings provide smooth balanced filler bowl rotation.
- Automatic adjustment of piston stroke available. Operational during fill.
- Manufactured with stainless steel, wear proof and non - toxic materials.
- Easily accessible push button control devices.
- Stainless steel hopper bowl with lid and inspection port.
- Safety Devices in compliance with international standards.
- Machine easily accessible for quick cleaning and inspection.
- Interlocked safety doors and Panels.

Each unit complete with installation, Operation and service instruction manual.

### Seamer

 Stations: 6

 Max/Min. (Can per Hour) 10800/2400

 Pitch 12 inches

 125 mm - 190 mm

 125 mm - 250 mm

### Filler

 Stations: 18

 Max/Min. (Can per Hour) 10800/2400

 Pitch 12 inches

 125 mm - 190 mm

 125 mm - 250 mm

 1500cc - 4500cc
